

## Tube and Bar Inspection Systems Retrofit, Replacement, and Upgrade with Olympus Components

Olympus offers a retrofitting or replacement service for tube or bar manufacturers' industrial inspection systems. High-quality, durable Olympus components can be integrated into a mechanical system that is already in place, either to replace the existing electronics (including obsolete or end-of-life parts) or to upgrade to more advanced and higher-performance inspection technology.

Unlike our competitors, Olympus designs, develops, and manufactures all the core ultrasonic technology—including hardware, software, and transducers—used in our turnkey systems and system upgrades. Take advantage of the easy communication, high quality, and reduced downtime you get from working with a comprehensive solutions manufacturer.

**Olympus QuickScan™ LT units**  
Advanced, durable PA acquisition instruments  
(multichannel UT and EC QuickScan models  
are also available)

**Olympus QuickView™ software**  
Simple user interface that eases  
system setup and data management

**Olympus probes**  
High-quality PA, UT, and ECA/  
ECT technology

### All Parts from One Supplier and Manufacturer

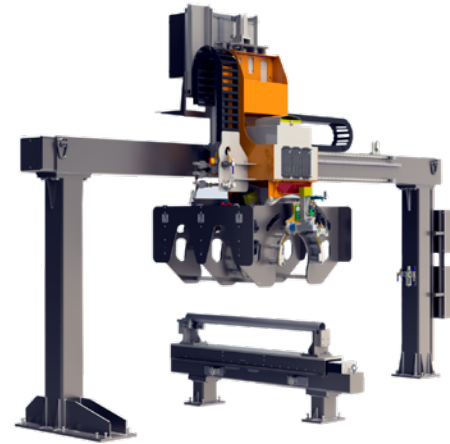

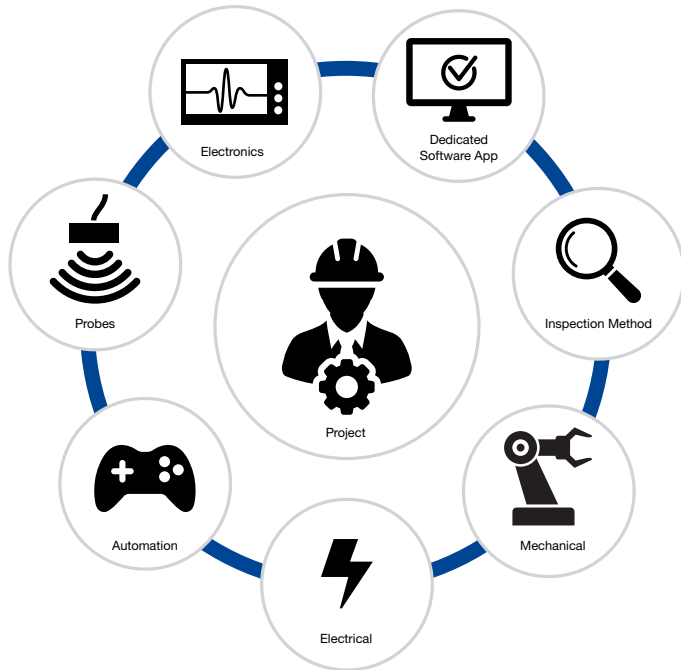

Replacing or retrofitting the core components of an existing inspection system with Olympus components can improve its efficiency and performance and increase its longevity. The quality and durability of our products deliver an excellent return on investment.

Our industrial inspection products and services include:

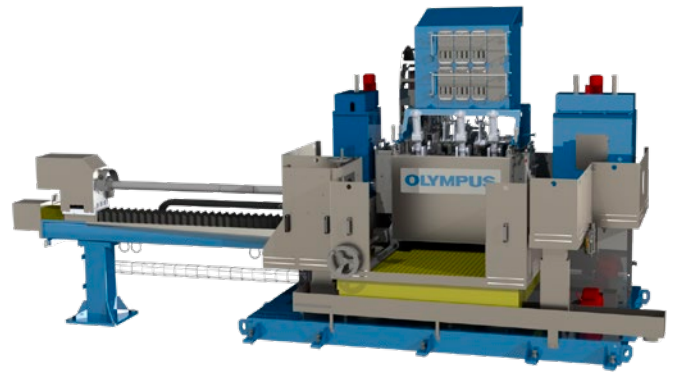

- Electronics upgrades—rugged and powerful instrumentation for industrial conditions and high-speed inspection
- Probe replacement, both standard and custom—including probes from other manufacturers
- Application-dedicated software

# Complete Olympus Solutions

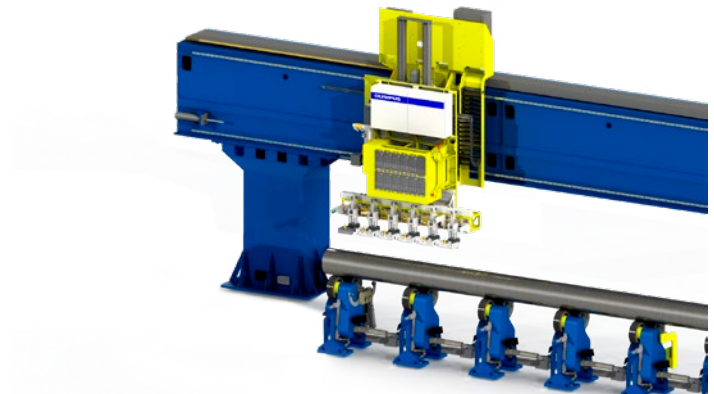

# Typical Inspection Systems

Electrical Resistance Weld (ERW) Tube Inspection System

Bar Inspection System (BIS)

Rotating Tube Inspection System (RTIS)

## Renowned Quality, Durability, and Longevity

Olympus is a global supplier with:

- All fields of expertise under the same roof
- A dedicated project team
- An experienced NDT team
- Renowned quality
- Durable, scalable, and reliable products

We take pride in satisfying our tube and bar manufacturer customers by providing solutions for their electronics upgrades, software updates, mechanical platforms, automation, after-sale support, spare parts, and probe replacement for PAUT and ECA/ECT inspection systems.
